Mindful breathing is one daily practice that school adopts. ***Mindfulness is the basic human ability to be fully present, aware of where we are and what we're doing, and not overly reactive or overwhelmed by what's going on around us.***

In order to be achieve a state of mindfulness, we practice mindful breathing every 5 minutes at the start of the day. This will help to create a sense of peace and help us to be grounded and aware of our own emotions.
